I. Call to Order and Introductions

II. Business Discussion and Possible Action

Discussion of the designation of the Data Management group from a Subcommittee to a Task Force.

III. Information Exchange

The Texas Water Development Board (TWDB) is currently updating the Water Information Integration and Dissemination (WIID) database and will report to the Subcommittee if a TCEQ Public Water Supply (PWS) data transfer is appropriate at this time.

The TCEQ and United States Geological Survey (USGS) will report if these agencies' databases contain a permanent U.S. Environmental Protection Agency (EPA) number associated with PWS groundwater wells.
